

TIME GLOBAL SCHOOL

PLAYGROUP TO CLASS - 8TH

OUR TEACHING PHILOSOPHY

Experience supports us!

1 Why is a pre-school needed?

Between 2 & 5 years of age, children are curious, eager to learn and assimilate information rapidly, express interest & wonder in each new discovery.

2 Why is a school needed?

Awareness is a cause of stagnation. Children in schools are not only introduced to fresh concepts, but also the same elderly fellow countrymen. This generates sociable behaviors such as empathy, fellowship, engagement, and encouragement that are essential in your adult life.

3 Why parent's choose TIME GLOBAL SCHOOL?

The **T.G.S.** experience adds a unique and essential dimension to the overall growth of your child. The **T.G.S.** is all about children interacting with other children in a warm, safe, comfort zone and fun-filled atmosphere.

WE WORK WITH GREAT TEACHERS

At the **TIME GLOBAL SCHOOL**, Bhadohi we understand that a school acts as a bridge between a Child's protected confines at home and the unexplored world outside. Because of this, we strive to make this transition very smooth and comfortable. Our caregivers and educators function as second parents to every child.

“Learning gives creativity, creativity leads to thinking, thinking provides knowledge and knowledge makes you great.”

Dr. APJ Abdul Kalam

QUALITY TEACHING

We focus on providing good teaching!

At **T.G.S.** children will find a comfort zone with people who are not relatives. By interacting with other children, they learn to live in a classroom community.

OUR CURRICULUM

Physical development ✓

Play based learning ✓

ABOUT THE SCHOOL

We have maintained excellent academic achievement over the years often achieving well above the national average in all subjects. Progress across the school for all children is good and we are also very proud of how well our **T.G.S.** children progress. Our academic excellence is due to good teaching and our broad and balanced curriculum. We believe that children should enjoy lessons and our teachers strive to make this happen through carefully planning our creative curriculum. Although we are proud of our results we believe that children should be well-rounded individuals and we strive to achieve this through our social and personal education. The **T.G.S.** is 100% non-toxic and has child safe infrastructure.
